The KVTrade Pro Community,

We're thrilled to share our 2023 performance review for KVTrade Pro. Amid market volatility and Federal Reserve actions, we outperformed the benchmark S&P 500 and other market indices. Our unique short-term trading approach sets us apart from other financial bloggers and YouTubers, making us the only service in the Chinese community to offer this style.

Why short-term trading? Let's say you start with a \$100,000 investment and average a 1% gain weekly. After one year (52 weeks), your investment value would be:

Total value = \$100,000 x (1.01)⁵²

Total value = \$100,000 x 1.64872

Total value ≈ \$164,872.00

This amounts to a 64.87% return on investment in just one year.

Kevin

致凯文讲财经会员,

我们很高兴为您分享 2023 年 KVTrade Pro 的收益率回顾。在市场波动和美联储行动的背景下, 我们的表现优于标普 500 指数和其他市场指数。我们独特的短线交易方法使我们从其他金融博主和 YouTuber 中脱颖而出, 成为唯一一家在中文社区提供此类服务的平台。

为什么选择短线交易? 假设您初始投资100,000美元, 平均每周收益1%。经过一年(52周)后, 您的投资价值将是:

总价值 = \$100,000 x (1.01)⁵²

总价值 = \$100,000 x 1.64872

总价值 ≈ \$164,872.00

这意味着仅用一年时间就实现了约 64.87% 的投资回报。
